

90/2009 - 17 June 2009

April 2009 compared with March 2009

## Construction output up by 0.6% in the euro area Up by 0.7% in the EU27

In the construction sector, seasonally adjusted production<sup>1</sup> increased by 0.6% in the **euro area**<sup>2</sup> (EA16) and by 0.7% in the **EU27**<sup>2</sup> in April 2009, compared with the previous month. In March<sup>3</sup>, production rose by 0.6% and by 0.1% respectively.

Compared with April 2008, output in April 2009 dropped by 4.7% in the **euro area** and by 5.1% in the **EU27**.

These first estimates are released by Eurostat, the Statistical Office of the European Communities.

## Monthly comparison

Among the Member States for which data are available for April 2009, construction output rose in six and fell in six. The most significant increases were registered in the **Czech Republic** (+5.2%), **Spain** (+3.2%) and **Sweden** (+2.9%). The largest decreases were recorded in **Slovenia** (-12.1%), **Romania** (-6.1%) and **Slovakia** (-3.1%).

Building construction increased by 0.6% in the **euro area** and by 2.7% in the **EU27**, after -0.4% and -1.3% respectively in March. Civil engineering decreased by 1.4% in the **euro area** and remained stable in the **EU27**, after +5.3% and +3.8% respectively in the previous month.

## Annual comparison

Among the Member States for which data are available for April 2009, construction output rose in four and fell in eight. The highest increases were recorded in **Germany** (+6.1%), **Sweden** (+4.6%) and the **Czech Republic** (+3.3%). The largest decreases were registered in **Slovenia** (-22.8%), **Romania** (-13.7%) and **Slovakia** (-12.7%).

Building construction decreased by 6.7% in the **euro area** and by 7.1% in the **EU27**, after -11.1% and -14.1% respectively in March. Civil engineering increased by 3.0% in the **euro area** and by 3.9% in the **EU27**, after +0.9% and -1.7% respectively in the previous month.

1. The production index in construction approximates the evolution of output within the sector, broken down into building construction and civil engineering. For the Member States which produce the construction index, but do not provide data for the reference period, Eurostat estimates missing values in order to calculate euro area and EU aggregates.

For total construction, and according to the Council Regulation 1165/98, Eurostat publishes national seasonally adjusted data if available. For Bulgaria, Denmark, Estonia, Ireland, Greece, Spain, Cyprus, Luxembourg, Malta, the Netherlands and Sweden, Eurostat makes the adjustment.

The seasonally adjusted euro area and EU series are calculated by aggregating the working-day adjusted series from individual Member States and making an adjustment for seasonal effects on these series. Therefore, the seasonally adjusted figures for total construction are based directly on the working day adjusted series from the Member States and **not on an aggregation of the seasonally adjusted indices from the Member States**. The euro area and EU seasonally adjusted growth rates might differ from the weighted growth rates of the individual Member States.

Working-day adjusted figures are currently transmitted by most of the Member States. For Bulgaria, Denmark and Malta, Eurostat makes the working day adjustment.

If a Member State does not supply monthly data (data not required by the regulation or data required but not yet sent), Eurostat calculates the missing series by linear interpolation from quarterly data, in order to calculate the monthly European aggregates.

2. The euro area (EA16) includes Belgium, Germany, Ireland, Greece, Spain, France, Italy, Cyprus, Luxembourg, Malta, the Netherlands, Austria, Portugal, Slovenia, Slovakia and Finland.

The EU27 includes Belgium (BE), Bulgaria (BG), the Czech Republic (CZ), Denmark (DK), Germany (DE), Estonia (EE), Ireland (IE), Greece (EL), Spain (ES), France (FR), Italy (IT), Cyprus (CY), Latvia (LV), Lithuania (LT), Luxembourg (LU), Hungary (HU), Malta (MT), the Netherlands (NL), Austria (AT), Poland (PL), Portugal (PT), Romania (RO), Slovenia (SI), Slovakia (SK), Finland (FI), Sweden (SE) and the United Kingdom (UK).

3. The figures published in News Release 73/2009 of 19 May 2009 for March 2009 have been revised. Compared with February 2009 the figures were -1.0% in the euro area and -2.1% in the EU27. Compared with March 2008 the figures were -8.7% in the euro area and -10.5% in the EU27.
