# Key sustainability indicators

Eni's main activities, from the exploration, production and refining of hydrocarbons, to the transportation and marketing of gas and oil products, are described in detail in the Annual Report and on the

website eni.com. The table below reports the main Sustainability indicators divided into thematic areas in conformity with the Global Reporting Initiative (GRI) "Sustainability Reporting Guidelines".

<sup>(</sup>c) The percentage refers only to young graduates in Italy and abroad.

<sup>(</sup>d) The percentage refers to executives, senior managers, managers and young graduates in Italy and abroad.

Aspect	GRI code	GRI description	Eni performance indicator
Investment and Procurement Practices	HR1	Percentage and total number of significant investment agreements that include Human Rights clauses or that have undergone Human Rights screening	Percentage of procurement toward suppliers subjected to qualification procedures including Human Rights screening
Investment and curement Practi	HR2	Percentage of significant suppliers and contractors that have undergone screening on Human Rights and actions taken	Suppliers subject to qualification procedures including Human Rights screening
Procu	HR3	Total hours of employee training on policies and procedures concerning aspects of Human Rights that are relevant to operations, including the percentage of employees trained	Training hours on Human Rights
Non-discrimination	HR4	Total number of incidents of discrimination and actions taken	Actions and episodes eventually occurred in the year which are subject to whistleblowing, are menaged in the way described in paragraph "Whistleblowing management" of the Annual Report
Freedom of Association and Collective Bargaining	HR5	Operations identified in which the right to exercise freedom of association and collective bargaining may be at significant risk, and actions taken to support these rights	Eni's Code of Ethics guarantees freedom of association and collective bargaining. Eni also follows local regulations and the collective agreements signed in the Countries where it operates and respects ILO principles
s Child Labor	HR6	Operations identified as having significant risk for incidents of child labor, and measures taken to contribute to the elimination of child labor	Eni's Code of Ethics rejects child labour. Eni also follows local regulations and the collective agreements signed in the Countries where it operates aimed at preventing child labour and monitoring incidental at risk situations
Human Rights Forced and Compulsory Labor	HR7	Operations identified as having significant risk for incidents of forced or compulsory labor, and measures to contribute to the elimination of forced or compulsory labor	Eni's Code of Ethics rejects forced labour. Eni also follows local regulations and the collective agreements signed in the Countries where it operates aimed at preventing forced labour and monitoring incidental at risk situations
Security Practices	HR8	Percentage of security personnel trained in the organization's policies or procedures concerning aspects of Human Rights that are relevant to operations	Percentage of security contracts with provisions on Human Rights  Security personnel trained on Human Rights
		Total number of incidents of violations involving rights of indigenous people and actions taken	Actions and episodes eventually occurred in the year which are subject to whistleblowing, are menaged in the way described in paragraph "Whistleblowing management" of the Annual Report
Indigenous Rights	HR9	Percentage and total number of operations close to indigenous communities in which specific engagement strategies have been carried out	Eni is adopting a new ESHIA standard that includes for each project the integrated evaluation of the environmental, social and health impacts. Up today Indigenous People Policies have been adopted in Australia and Norway
Assessment		Percentage and total number of operations in weak governance zones that have been subject to Human Rights reviews and/or impact assessments	Eni launched the Human Rights Compliance Assessment (HRCA) project in order to find definitive responses to a series of questions concerning the merits of its effective capacity to minimise the risk of violating Human Rights and in the complicity in violations carried out by third parties that occur within its sphere of influence. The project consists of self assessments of the potential risks of violating Human Rights or of complicity in violation by individual subsidiaries. Up today, two pilot project (to test the methodology) were carried out in Nigeria and Kazakhstan, and four self assessments were carried out in Republic of Congo, Algeria, Egypt and Pakistan
Whistleblowing		Number of grievances related to Human Rights filed, addressed and resolved through formal grievance mechanisms	Actions and episodes eventually occurred in the year which are subject to whistleblowing, are menaged in the way described in paragraph "Whistleblowing management" of the Annual Report

<sup>\*\*</sup> Refers to contracts stipulated in Italy and abroad by sectors/subsidiaries belonging to Eni's Group. According to the survey on HR clauses, the sites with security contracts are 196, 39 of which have included HR clauses in their security contracts.

<sup>\*\*\* 79</sup> in Nigeria (Police and Military) and 27 in Egypt.

Asp	ect	GRI code	GRI description	Eni performance indicator
Community	,	S01	Nature, scope, and effectiveness of any programs and practices that assess and manage the impacts of operations on communities, including entering, operating, and exiting	In compliance with its internal policy and standards, Eni systematically carries out evaluations/studies of the social and environmental impact (EIA/ESIA) of all its projects, both in exploration and development, also in conformity with local legislation. When the outlines of projects have been defined, and implementation confirmed, the relevant documents are presented to the competent local authorities for approval and consultation as per local procedures
		S02	Percentage and total number of business units analyzed for risks related to corruption	The initiatives against corruption are described in the Annual Report
				Employees trained in anti-corruption policies and procedures
				Percentage of key officers trained in anti-corruption policies and procedures through e-learning
uption	Corruption 203	S03	Percentage of employees trained in organization's anti-corruption policies and procedures	Percentage of key officers trained in anti-corruption policies and procedures through workshops
Corr			policies and procedures	Hours of training on anti-corruption policies and procedures carried out through e-learning
				Hours of training on anti-corruption policies and procedures carried out through workshops
Society		S04	Actions taken in response to incidents of corruption	Actions and episodes eventually occurred in the year which are subject to whistleblowing, are menaged in the way described in paragraph "Whistleblowing management" of the Annual Report
Public Policy	P	\$05	Public policy positions and participation in public policy development and lobbying	Eni thinks that a correct, transparent and participative dialogue with institutions, NGOs and the civil society is a key factor to gain trust and keep its licence to operate. Eni has always been proactive in the dialogue with national and international institutions, through direct interventions of its top management and indirectly through several associative organizations
ž		S06	Total value of financial and in-kind contributions to political parties, politicians, and related institutions by Country	Eni does not grant direct or indirect contributions to parties, movements, committees and political organizations, to their delegates and candidates, but when provided by specific regulations
Anti-Competitive	Behaviour	S07	Total number of legal actions for anticompetitive behaviour, anti-trust, and monopoly practices and their outcomes	Details about legal actions and interventions of the European Commission and of regulatory authorities are reported in the Annual Report
Compliance		S08	Monetary value of significant fines and total number of non-monetary sanctions for non-compliance with laws and regulations	Information about the most relevant fines and sanctions are included in the Annual Report
Customer Health and	Safety	PR1	Life cycle stages in which health and safety impacts of products and services are assessed for improvement, and percentage of significant products and services categories subject to such procedures	As provided in the Code of Ethics, Eni undertakes to respect the right of consumers not to receive products harmful to their health and physical integrity and to get complete information on the products offered to them. Eni is committed to producing fuels that enhance motor performance and power, cut consumption, and reduce polluting emissions. Eni is also committed to increasing the efficiency of its chemical plants and the safety of the production processes, in order to minimize the various emissions and to protect its employees and the local communities
y Service	Labeling	PR3	Type of product and service information required by procedures, and percentage of significant products and services subject to such information requirements	All the information concerning product stewardship can be found on the Eni's website and at its points of sale
sibilit	abeli			Customer satisfaction index (R&M)
spon	_	PR5	Practices related to customer satisfaction, including results of surveys measuring customer satisfaction	Customers involved in satisfaction surveys (R&M)
Product responsibility	•			Customer satisfaction index (G&P)
Prod Marketing Communications	0	PR6	Programs for adherence to laws, standards, and voluntary codes related to marketing communications, including advertising, promotion, and sponsorship	Eni is committed to respecting the law in every Country. Eni supports the communities also by means of sponsorships, selected through different criteria, such as affinity to the corporate identity and image, the connection with the territory, the adherence to its business objectives and, as a common denominator, the coherence with its Sustainability and ethical principles
				Percentage of telephone calls by customer that spoke with an operator (service level). AEEG standard 80%
Compliance		PR9	Monetary value of significant fines for non-compliance with laws and regulations concerning the provision and use of products and services	Details about fines and sanctions are reported in the Annual Report
